LETTER OF SUPPORT

RE: *Holodomor: Genocide by Famine Exhibition*

The exhibition *Holodomor: Genocide by Famine* prepared by the League of Ukrainians in Canada (LUC) is a most comprehensive and formidable information and education tool.

It uniquely documents the Holodomor and provides many facets, including:

- Its historical context;
- The reaction in 1933-34 of the international community and the Ukrainian Diaspora to the genocide in progress;
- The rising level, of Holodomor awareness over past decades and
- Culminating with the present-day recognition both in Ukraine and internationally as an act of genocide against the Ukrainian people.

I fully support your endeavors to distribute his exhibit internationally in its "*Exhibit in a Box*" and *CD ROM formats* to educational institutions, libraries, museums, media outlets and other venues.

I also highly recommend this exhibit be further expanded with additional materials and documents which are being regularly disclosed. It would be most beneficial to have it translated into Ukrainian and other languages.

Both Ukraine and the Diaspora should lend support to this exceptional project. I wish you well in your future endeavors.

Yours sincerely,

Stefan Romaniw OAM
